CLIMATE XCHANGE **2022 Impact Report**

Looking Back
Forging Ahead

Looking Back
Forging Ahead

States are critical in accelerating the transition to a zero-emissions economy, which is why Climate XChange (CXC) is focused on helping them **access federal funding and pass equitable climate policies**. In a year of unprecedented progress — with the passing of the historic Inflation Reduction Act (IRA) and major policy advancements at the state level — we continued to empower state actors with information and resources to push for critical climate action.

Climate XChange's impact model makes us unique; through our programs and resources, we amplify and enrich the work of climate actors across the country. Our State Climate Policy Network has an audience of more than 18,000 state and local policymakers, advocates, and other movement leaders, and in 2022, we partnered with other prominent organizations to share vital information and tools to advance state climate policy. At the heart of Climate XChange's resources is our knowledge engine — our State Climate Policy Dashboard, the most comprehensive publicly accessible policy database. The Dashboard is powered by information from more than 100 contributing organizations and helps identify the best opportunities for state actors to develop effective and equitable climate policies. In addition to facilitating nationwide climate policies, we're on the ground in Maryland, committed to pursuing environmental justice by passing the Climate Crisis and Environmental Justice Act.

I joined Climate XChange in March 2022 and couldn't be more proud of what our team has accomplished since then! Last summer, we started developing our **5-Year Strategic Plan** to reassess our priorities and ensure we make the greatest impact. This report shows that our small and nimble team has made great strides in delivering powerful results while forging a clear path for our organization's future. I am excited about what the future holds!

We are grateful to our donors, the foundations that have supported our work, and our partners who inspire us. In the year ahead, CXC will continue diversifying its income sources by reaching out to foundations that share our values and principles, while building upon the success of our annual EV Raffle to fund exciting new programs in our impactful strategic plan. Our efforts are bolstered by the invaluable advice and entrepreneurial spirit of our Board and its commitment to Climate XChange's mission. I am deeply thankful for their continued leadership and support.

Paola Ferreira Miani
Executive Director

Mission & Vision

Our mission is to achieve a rapid and equitable transition towards a zero-emissions economy by advancing state climate policy.

We empower state and local policy makers, business leaders, and advocates with the information, resources, and networks they need to make these policies a reality in a way that best serves local communities.

Our Work

We support state actors' efforts to pass climate policies through three main areas of focus:

State Climate Policy Network
An online network that serves to increase interstate collaboration and empower state actors working on climate policy.

State Climate Policy Dashboard
A comprehensive public database tracking more than 65 climate policies across all 50 states.

Direct Advocacy in Maryland
We organize a diverse coalition of stakeholders in Maryland to pass environmental justice legislation in the state.
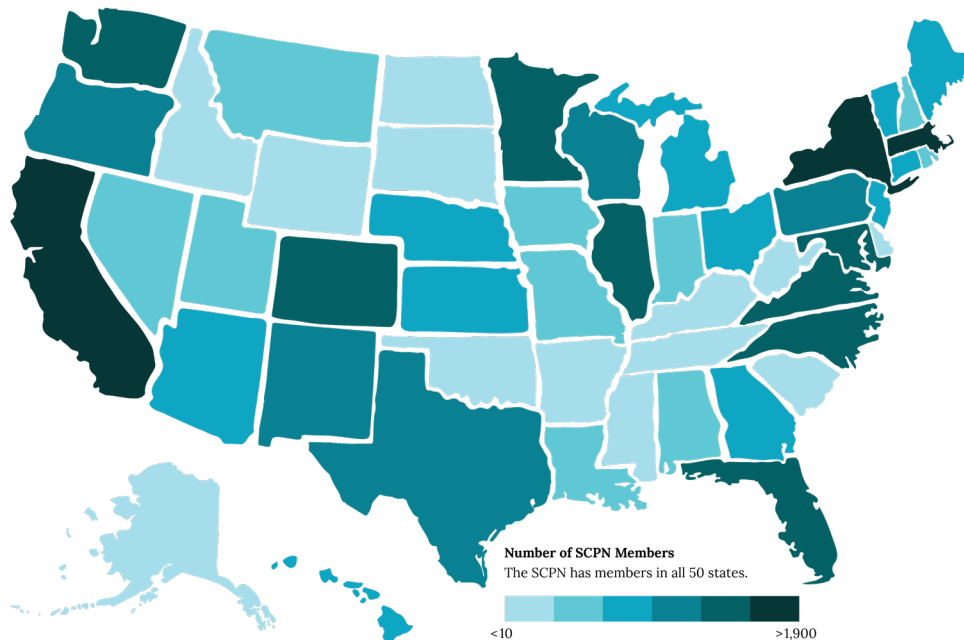

State Climate Policy Network

At its core, the State Climate Policy Network (SCPN) exists to help climate movement leaders meet their needs. We offer digital programs such as monthly national policy calls and webinars, quarterly legislator discussions, a biweekly newsletter, and policy assistance, each designed to facilitate connection and collaboration among state legislators, nonprofit advocates, government officials, and researchers in the climate space. In 2022, we grew the SCPN in both quantity and quality, deepened our relationships with network actors, and developed robust partnerships with other leading organizations to support the climate movement.

The SCPN audience is also offered a direct line to our staff experts and organizational partners to help advance their work. Our team provides technical policy assistance, collaborates with external partners to answer questions, and connects actors to other stakeholders working through similar issues.

In 2022, we fulfilled 47 assistance requests from legislators, executive branch officials, advocates, and technical experts working in 31 states, including many multistate and national requests. Some notable services have included helping NGOs and legislators draft new bills, training executive branch officials on tracking state climate policy and developing model language using our State Climate Policy Dashboard, producing custom policy analysis for national organizations and state coalitions, and connecting state actors on specific campaigns to collaborate within and across state lines.

State Climate Policy Dashboard

In 2021, we launched the State Climate Policy Dashboard — the most comprehensive publicly accessible database tracking 65+ climate policies across all 50 states, with quarterly updates. Since launching, the Dashboard has seen more than 50,000 pageviews by climate actors and has been cited in dozens of research reports, articles, and policy tools.

100+
Dashboard citations and shared by the EPA, The New York Times, and ACEEE

Our new Dashboard Digest article series dives deeper into each policy that we track. So far we've published 13 articles on electricity and building policies from energy storage and shared renewables to utility reform and energy efficiency.

The Dashboard features the work of more than 100 organizations, but we'd like to thank our key contributors for sharing data and resources:

- American Council for an Energy-Efficient Economy
- Center for a New Energy Economy
- National Caucus of Environmental Legislators
- Lawyers for Good Government
- The League of American Bicyclists
- Center for Climate and Energy Solutions
- RMI
- Georgetown Climate Center
- LPDD

Thank You!

Pursuing Environmental Justice in Maryland

In 2022, Maryland passed strong greenhouse gas reduction goals, proving the state is a national leader on climate policy. However Maryland's climate commitment is only the first step, and it's crucial that as the state's economy becomes cleaner, historically underserved communities are no longer left behind.

Our team leads the Rebuild Maryland Coalition, a diverse group of stakeholders working to reduce greenhouse gas emissions, hold polluters responsible for the damage they have caused, and put frontline communities first. Our main priority is to pass the Climate Crisis and Environmental Justice Act (CCEJ) which will enhance the state's greenhouse gas targets by holding polluters accountable while funding programs that support our most vulnerable communities.

The CCEJ establishes a strong fee on polluters, increasing each year while raising money for key climate programs in the state. The revenue raised by the CCEJ will go towards a Benefit Fund, protecting disproportionately affected households and energy-intensive businesses, and an Infrastructure Fund, which invests in initiatives that improve overall public health and welfare.

Maryland Regional Director Wandra Ashley-Williams speaking at an Annapolis rally.

We Made Strides

Last Year

- Secured the endorsement from the new chair of the Education, Energy, and Environmental Committee.

- Hosted a policy forum that included six of the then-gubernatorial candidates.

- Sponsored a rally at the University of Maryland with nearly 50 students, community members, and climate activists. Over a dozen students now volunteer for the Rebuild Maryland Coalition to take action on the climate crisis.

Next Year

In the next year, our team will focus on strengthening the support for the CCEJ by engaging with legislators, nonprofits, businesses, and voters to show how this funding will make our communities healthier and strengthen local economies. As we increase the membership of the Rebuild Maryland Coalition, we'll ensure that the voices of frontline community members are being lifted up and listened to.

The Rebuild Maryland Coalition has the support of hundreds of voters, a growing and passionate student movement, and nearly 70 organizations including:

- Maryland Legislative Coalition Climate Justice Wing
- Maryland Legislative Agenda for Women (MLAW)
- Citizens Climate Lobby, Annapolis Chapter
- 1199SEIU United Healthcare Workers East, Maryland/DC Division
- Chesapeake Climate Action Network
- League of Women Voters of Maryland
- Elders Climate Action, DMV Chapter

Roadmap to Victory

Providing state actors with programming and connections to advance climate action.
WE PLAN TO:

CREATE A HIGH-IMPACT OUTREACH PLAN
Deepen the participation of high impact stakeholders through targeted outreach

CONDUCT AN IN-DEPTH NETWORK SURVEY
Conduct outreach to best meet the needs of the state climate movement

ENHANCE NETWORKING AND INTERACTIONS
Invest in CRM communication and technology to facilitate network interactions

CONSOLIDATE PARTNERSHIPS
Structure partnerships with experts to share their services and resources through SCPN programs

PRODUCE STATE-FOCUSED CONTENT
Use audience segmentation to provide impactful tailored content. Emphasis on Inflation Reduction Act (IRA) & Infrastrture Investment and Jobs Act (IIJA) with expert partners
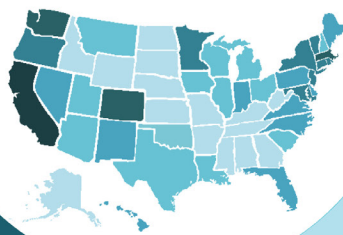

STATE CLIMATE POLICY NETWORK (SCPN)

CLIMATE X CHANGE
STRATEGIC PLAN

STATE CLIMATE POLICY DASHBOARD

MARYLAND CAMPAIGN

REDESIGN OUR DASHBOARD INTO A USER-FRIENDLY TOOL WHERE STATE ACTORS CAN READILY IDENTIFY:

Policy opportunities to advance climate action

Information for states to implement federal funds

Analysis, toolkits, and other resources to advance climate policy

THE GOAL
Pass the Climate Crisis and Environmental Justice Act (CCEJ)

- Establishes two types of fossil fuel fees in Maryland
- Raises funds to protect low- and moderate- income households from climate risks

ENVIRONMENTAL JUSTICE IN MARYLAND

HOW
- Bring underrepresented voices to the table
  ◦ Rebuild Maryland Coalition
  ◦ Student Movement
- Hold polluters accountable
- Put frontline communities first

STATE DRIVEN POLICY ASSISTANCE

2023	2023-24	ONGOING
WEBSITE STRATEGY & DISCOVERY	FULL WEBSITE BUILD	WEBSITE UPGRADE & MAINTENANCE
Continue to maintain dashboard data		Expand policy scope and deepen analysis

PARTNERSHIPS

| DATA TRACKING	IN-DEPTH POLICY ANALYSIS	GHG MODELING	STATE POLICY RESOURCES	CO-FUNDING

THE PROBLEM
A significant number of states are not well supported by climate nonprofits and think tanks

OUR SOLUTION
Collaborate with technical partners to provide assistance to selected states to facilitate and accelerate policy adoption and use of federal funds

ACCELERATES CLIMATE MITIGATION

Technical Analysis → CXC → State Actor

Thanking our Supporters

Our team at Climate XChange is dedicated to helping states pass effective and equitable climate policies, and our work is made possible by our generous supporters.

Thank you so much to all who contributed to our cause in 2022!

CLIMATE XCHANGE

Board

Cathy Carruthers
Chairman of the Board

Cathy is a retired Natural Resource Economist, previously working for the state of Washington for 21 years, most recently for Tacoma Power.

Kalman Gacs
Secretary

Kalman is the Project Manager and Creative Director at Viv Web Solutions, but found his start making digital graphics for the climate movement.

Laura Teicher
Board Member

Laura is the Executive Director at FORGE, a nonprofit that helps startups navigate the journey to reach impact at scale.

Peter Kirby
Board Member & Raffle Director

Peter is a former strategy consultant and executive for IBM, now investing his time and assets to fight the climate crisis.

Quinton Zondervan
Treasurer

Quinton is a Cambridge City Councillor, and his business and technology background helped him start and lead several companies and organizations.

Climate XChange Team

Amanda Pontillo
Communications Director & Operations Lead

Amanda comes to Climate XChange from the Massachusetts State House where she focused on energy and environmental policy. She oversees the organization's content creation and brand identity – designing graphics and report layouts, managing the website, and editing insights and research. She also oversees operations for CXC.

Da'Juan Gay
Maryland Organizer

At Climate XChange, Da'Juan works on our Maryland Campaign, growing a diverse group of stakeholders to join the Rebuild Maryland Coalition. Da'Juan also serves on the City Council in Annapolis, MD, winning a seat as the youngest member in the city's history.

Greg Casto
Senior Communications Associate

Greg's work at Climate XChange focuses on helping people understand the nuanced topic of climate policy. He is responsible for writing online content, social media, and managing all external communications for Climate XChange.

Jonah Kurman Faber
Policy & Research Director

Jonah is a climate and energy policy expert with a focus on decarbonization pathways, green stimulus, state policy, carbon pricing, equity and environmental justice, and public health. He serves as a technical resource for policymakers and leaders at the nexus of interdisciplinary economics and social movements.

Kristen Soares
State Climate Policy Network Manager

Kristen is a UCLA graduate with a degree in Environmental Science and Public Affairs. At Climate XChange they manage the SCPN: conducting outreach, organizing webinars, and facilitating connections between state climate actors.

Paola Ferreira Miani
Executive Director

Paola Ferreira is an environmental policy and strategy expert with 22 years of international experience in biodiversity conservation, climate change, and energy. As Climate XChange's Executive Director, Paola leads our organization by spearheading our 5-Year Strategic Plan.

Ruby Wincele
Policy & Research Manager

Ruby researches the economic, social, and environmental benefits of state climate policy and provides technical assistance to policymakers and advocates working to pass equitable climate policy in their states. She also tracks climate and adaptation policies across every state for the State Climate Policy Dashboard.

Sean Lau
Operations Associate

Sean graduated from Northeastern University with a Bachelor's degree in Politics, Philosophy, and Economics and a Masters degree in Environmental Science and Policy. At Climate XChange, Sean keeps track of our income and expenses and maintains our Customer Relationship Management software.

Wandra Ashley-Williams
Maryland Regional Director

Wandra Ashley-Williams is an accomplished senior management executive, community activist, and elected official with notable experience in diversified industries as well as public service. Wandra lead's Climate XChange's participation in the Rebuild Maryland Coalition in order to pass environmental justice legislation in the state.
