Offshore Wind funds the development of large-scale offshore wind projects in Massachusetts. This program focuses specifically on the planning, design, and construction phases of offshore wind expansion.

**Benefits**

The development of offshore wind is a crucial component of the Commonwealth’s pathway to a decarbonized energy system. Investing in offshore wind infrastructure will create jobs in the construction, engineering, and contracting industries, and long-term savings on electricity costs will support a substantial number of jobs in the broader economy as well.

**Results**

Each dollar invested supports 75 percent more jobs than a dollar invested in the state’s ten largest industries. Additionally, every dollar invested saves $1.37 in energy cost savings, improved public health, and climate benefits.

**Investment Scale**

- High $$$$  
**Deployment Speed**

- Slow 

**Jobs per Million Invested**

- 13.4 Jobs  
- 7.8 Jobs

**Benefits per Million Invested**

- **Energy Cost Savings**  
  $926,000  
  Energy costs avoided by deploying renewable sources

- **Climate Benefits**  
  $385,800  
  Avoided future damages of climate change from greenhouse gas pollution

- **Air Pollution Health Benefits**  
  $56,700  
  Saved lives and avoided illnesses from improved air quality

**Total**  
$1,368,600
